To Whom It May Concern:

Tylor Emmett is intelligent, hard working and dedicated to producing the highest results. I have witnessed Tylor grow as a team member, show initiative, and follow thru with leadership skills when presented with the opportunity to excel. He routinely exhibits the skills to complete all tasks in a timely manner and always welcomes new challenges and opportunities to learn. In our IT shop, you must be able to work with minimal direction, have a wide frame of knowledge, and be able to explain complicate issues to a non-technical audience. I feel that Tylor would be a great addition to any corporation and will add value immediately upon hire.

Sincerely,

Brad Holladay
